#### MORTHWESTERN BELL TELEPHONE COMPANY

GENERAL OFFICES, TENTH & GRAND, DES MOINES, IOWA

E. K. Haldeman, District Commercial Manager, Des Moines, Iowa

P. M. O'Gara, Local Manager

Call "Repair Department" if your telephone is out of order.

Call "Chief Operator" to inquire about a call in the process of completion.

Call "Manager's Office" for all business transactions such as applications for service, changes in service, directory listings, directory advertising, inquiries regarding bills or charges, or to report unsatisfactory service of any kind.

#### HOW TO USE THE TELEPHONE

Always obtain the correct telephone number from the directory before you make a call.

If the person you wish to speak to is not listed in the directory, call "Information."

Speak slowly, clearly and directly into the telephone, with your lips about one inch from the mouthpiece, so that you will not be misunderstood.

After you have given the number, listen carefully while the operator repeats it. If she repeats it correctly, say "Right"; if she repeats it incorrectly, say "No" and give the number again.

To recall the operator on a connection, move the receiver hook up and down slowly three or four times.

Do not hang up the receiver until you are through with the connection, as this gives the operator a signal to disconnect you. When your telephone is not in use, always keep the receiver on the hook; otherwise your line will be out of order.

Answer your calls promptly. Failure to do so keeps the calling party waiting and may result in the loss of a message.

In answering a call, say for example, "Mr. Jones speaking" or "Smith & Co., Jones speaking." This method of answering identifies you and saves time. It is desirable to answer calls in this manner both from business and residence telephones.

Because telephone numbers are subject to change, it is desirable merely to indicate on printed matter, signs, etc., that you have Bell telephone connection instead of using the number.

#### LONG DISTANCE SERVICE

To make a long distance call, ask the operator for "Long Distance." When "Long Distance" answers, give her your name and telephone number and the details of the call, stating which class of long distance service you desire to use. When "Long Distance" acknowledges your call, hang up the receiver and wait until the operator calls you.

Different rates apply for the different classes of long distance calls. Information regarding them and how each class can be used to the best advantage follows:

A Station-to-Station Call should be made when you will talk to anyone answering the telephone called, or when you feel that the person with whom you wish to talk, can be promptly summoned to the telephone by the person answering. In placing such a call, for example, say to the operator, "I want to talk with anyone at John Smith's telephone at Redmond, Iowa." (Give telephone number if known, or street address.)

Rates for station-to-station calls are considerably cheaper than for other classes, because less labor and use of the telephone equipment is required to complete them. For the same reason, station-to-station service is generally more rapid.

When a call is placed as a station-to-station call, but sent collect, the person-to-person rate is charged. On such calls, it is necessary to have someone at the

telephone called agree to pay for the message before the conversation can be held. This requires approximately as much work as a person-to-person call.

Evening and Night Rates apply only on station-to-station calls. Evening rates are in effect from 8:30 P. M. to midnight and are about one-half the day rate. Night rates apply from midnight to 4:30 A. M. and are about one-fourth the day rate. However, when the day rate is 25 cents or less the evening or night rate is the same as the day rate. Otherwise the minimum rate for evening or night calls is 25 cents.

A Person-to-Person Call is used when you desire to talk with a specified person and want the operator to locate him by telephone and inform. him of the call. In placing such a call, for example, say to the operator, "I want to talk with John Smith at Redmond, Iowa." (Give telephone number if known, or street address.) Person-to-Person rates are one-fourth to two-fifths higher than station-to-station rates.

An Appointment Call is made when you arrange to talk with a specified person at a designated time. The rate for this class of service is about one-fifth higher than for a person-to-person call.

Messenger Calls—When it is necessary to send a messenger to summon the person called to a telephone, it is a messenger call. The rate for this

18

class of call is about one-fifth higher than a personto-person call plus the messenger charges.

Report Charge-On uncompleted person-toperson, messenger and appointment calls a report charge is made when it is impossible to reach the person called within a limited period and such failure is due to no fault of the telephone company.

The report charge is approximately the difference between the day station-to-station rate and the person-to-person rate. This charge is made to cover a part of the expense of the operators' time and the use made of the equipment in attempting to

locate a specified person to inform him that you wish to talk to him, and to make reports to you, if he is not available. A report charge is not made on uncompleted station-to-station calls because this work is not performed by the telephone company.

To obtain rates to any place, call "Long Distance." If you want to know the charges on a call at the close of your conversation, notify the long distance operator when you place the call.

Our Manager is anxious to give further information regarding our long distance service. Please

feel free to call upon him.

#### Jones Moved Today—But He Forgot Something

During the past month Jones has been busy getting ready to move. The furnace in the new house had to be overhauled, the house repapered, floors varnished and the moving van engaged. But he forgot the telephone.

Considerable work is always required to establish telephone service, even when a telephone is already in

the house. Switchboard and other connections must be made and many records changed.

For this reason, it is important that we be notified as far in advance of moving as possible.

But even when notified in advance, the rush of orders sometimes makes it impossible for us to provide service as promptly as we desire.

#### NORTHWESTERN BELL TELEPHONE COMPANY

# "I'm being a good girl, daddy, while you are away"

No matter where you are—a few miles away or several hundred—you can travel home quickly by "long distance" and talk with loved ones there.

"Long distance" is a convenient way to keep in touch with home or business, or for any other social or commercial purpose.

Evening rates apply on station-to-station calls from 8:30 p.m. to midnight when the day rate is 25 cents or more. If the day rate is 50 cents or more, the evening rate is about half the day rate.

Ask the long distance operator for rates on any class of service, to any point, at any time.

# How to Help "Information" to Help You

We find that nearly half of the numbers asked of information operators are correctly listed in the directory.

Before you call "Information", always make sure that the number you wish is not in the directory. This will save time.

When it is necessary to call an information operator, please give her the complete and definite facts, such as the correct spelling of the name, initials and address.

Only when given complete information can these girls consult their records and obtain the number for you quickly.

And your thoughtful patience while an information operator is finding the number will help her to help you.
